Sir:

APPLICANT'S TELEPHONE INTERVIEW SUMMARY

Applicant thanks the Examiner for his time conducting a telephonic interview on December 17, 2003, with Applicant's undersigned representative and Dr. Hugh Pasika. The rejections of record under 35 U.S.C. §§ 102, 103 and over U.S. Patent No. 5,072,382 to Kamentsky ("Kamentsky") and the distinctions between the presently claimed invention and Kamentsky with regards to an integrated signal and integrating detector, as set forth in the Amendment filed August 13, 2003, were discussed. Agreement was reached that the rejections under 35 U.S.C. §§ 102, 103 over Kamentsky have now been obviated.
